

SUPPLY LIST [Consulting Service]

(as of April 2024)

Country	Service	Year
Korea	Plant diagnosis & report submission for No.5 cement mill	2024
Japan	Plant diagnosis & report submission	2023
Japan	Plant diagnosis & report submission	2023
Japan	Technical support for Gas burning at kiln	2023
Japan	Technical support for Gas burning at kiln	2022
India	Raw material testing for the 800t/d white clinkerization line	2022
Japan	Technical support for kiln operation	2022
Japan	Technical support for kiln operation	2022
Japan	Plant diagnosis & report submission for lime kiln	2022
Indonesia	Plant diagnosis & report submission for No.1 & No.2 kiln	2022
Korea	Study of raw mill area air balance for No.2 kiln	2022
Korea	Study of raw mill area air balance for No.3 kiln	2021
India	Testing representative raw material samples	2021
Japan	Plant diagnosis of pyro section	2021
Japan	Measurement and Study for improvement of CI-bypass	2021
Japan	Plant diagnosis of pyro section	2021
Japan	Measurement and study of Pre-heater exhaust gas flows for installation of Kiln Bagfilter	2021
Japan	Plant diagnosis of pyro section	2019
Japan	Plant diagnosis of grinding section	2019
Japan	Technical support for Line kiln operation	2019
India	Site study and report submission for No.1 and No.2 kilns	2019

Country	Service	Year
Egypt	Plant diagnosis & report submission	2018
Egypt	Plant diagnosis & report submission	2018
Japan	Technical support for kiln operation	2018
Japan	Plant diagnosis & report submission for lime kiln	2018
Japan	Plant diagnosis & report submission for No.3 lime kiln	2018
Malaysia	Study of conceptual design on proposed clinker grinding expansion project	2018
Philippines	No.5-10 existing quay reinforcement study	2018
Korea	Plant diagnosis of pyro section and raw mill section for No.3 and No.4 kiln line	2018
China	Plant diagnosis & report submission of cement production line	2018
Japan	Plant diagnosis & report submission for No.4 Kiln for modification of Clinker Cooler	2018
Japan	Investigation on kiln operation for No.5 kiln line	2018
India	Technical guidance on No.1 and No.2 kilns with fuel oil operation	2018
China	Bottom cyclone inlet gas temperature automatic control for stable operation on No.2 kiln	2017
Japan	Plant diagnosis & report submission for No.2 lime kiln	2017
Japan	Plant diagnosis & report submission for lime kiln	2017
Japan	Plant diagnosis & report submission for lime kiln	2017
India	Site Investigation on No.1 and No.2 kiln	2017
Vietnam	Consultancy services of making feasibility study report (FS) for solution of reducing dust emission in critical condition of production lines	2017
South Africa	Study for the possibility of GHG emission reduction by introducing Waste Heat Recovery and Mineral Carbon Capture to cement plant (WHR part)	2017
Korea	Plant diagnosis & report submission of pyro-section and raw mill section	2017
India	Review decolorizer operation & report submission	2016

Country	Service	Year
Japan	Investigation on kiln operation	2016
Japan	Investigation on kiln operation for No.3 kiln line	2016
Japan	Optimization of limestone kiln operation	2016
Indonesia	Plant diagnosis & report submission for lime kiln	2016
Japan	Technical support for kiln operation for No.2 kiln line	2016
South Africa	Support for FY2016 JCM feasibility study in South Africa	2016
Combdia	Plant diagnosis & report submission of pyro-section for No.1 kiln line	2016
Malaysia	Phase I services on proposed clinker expansion project	2016
Thailand	Plant diagnosis & report submission for No.5 kiln line	2016
Korea	Plant diagnosis & report submission	2016
Myanmar	Myanmar - Japan, co-benefits approach bilateral cooperation project	2016
UAE	Plant diagnosis & report submission for RSP kiln	2016
Thailand	Plant diagnosis & report submission for No.5 kiln line	2016
India	Investigation on waste heat recovery power geneating plant	2016
China	Plant diagnosis & report submission for lime kiln	2015
Japan	Investigation on improvement of plant efficiency	2015
Japan	Plant diagnosis & report submission for lime kiln	2015
Thailand	Plant diagnosis & report submission for No.6 kiln line	2015
Malaysia	Specific technical study and improvement exercise related to specific equipment for groups of operating equipment to improve its full optimization (plant investigation)	2015
Laos	Joint Crediting Mechanism planning study	2015
Korea	Plant diagnosis & report submission for No.1 & No.3 kiln line	2015
India	Plant diagnosis & report submission for No.1 & No.2 kiln line	2015

Country	Service	Year
Thailand	Plant diagnosis & report submission for No.4 kiln line	2015
Thailand	Plant diagnosis & report submission for No.1 kiln line	2015
Sri Lanka	Full feasibility study for proposed integrated cement plant	2015
Indonesia	Plant diagnosis study & report submission for optimization of pyro-section	2015
China	Plant diagnosis & report submission	2015
Tanzania	Technical guidance on plant optimization	2015
UAE	Investigation and optimization of No.1 and No.2 kiln	2015
India	Plant diagnosis & report submission for No.1 kiln & No.1 cement mill	2015
Japan	Technical support for kiln operation	2014
Japan	Investigation on kiln operation for No.5 kiln line	2014
Japan	Investigation and improvement of facilities using alternative fuels	2014
Japan	Investigation on kiln operation	2014
Japan	Technical support for kiln operation for No.2 kiln line	2014
Australia	Plant diagnosis & report submission for lime kiln	2014
Canada	Plant diagnosis & report submission for lime kiln	2014
China	Investigation related to co-benefits project for low carbon society in China	2014
Thailand	TL5 plant diagnosis & report submission for optimization of pyro-section	2014
Angola	Feasibility study of cement raw material quarry development at Lobito, Angola	2014
Mongolia	Related to feasibility study of flyash utilization, NEDO	2014
Philippines	Dispatch specialist to Peer Review on Energy Efficiency in the Philippines	2014
UAE	Site investigation on cement mill (white cement)	2014
Malaysia	Training of operation instruction for AF equipment	2014

Country	Service	Year
Laos	Joint Crediting Mechanism feasibility study	2014
Russia	Pre-Engineering work for 2000t/d cement plant project , Russia	2014
Thailand	Plant diagnosis & report submission for optimization of pyro-section	2014
Thailand	Plant diagnosis & report submission for optimization of pyro-section	2014
Russia	Instruction to geological investigation and analysis of samples from limestone quarry and additive deposits , Russia	2014
Thailand	Re-site survey and report submission for No.2 kiln line uprate project	2014
India	Plant diagnosis & report submission for optimization of pyro-section	2014
Japan	Technical support for kiln operation	2013
Japan	Investigation on kiln operation for No.3 kiln line	2013
Japan	Improvement of plant efficiency for No.1 kiln line	2013
Japan	Reduce of heat consumption for No.1 kiln line	2013
Japan	Reduce of heat consumption for No.3 kiln line	2013
Japan	Reduce of heat consumption for No.4 kiln line	2013
Japan	Reduce of heat consumption for No.1 kiln line	2013
Japan	Reduce of heat consumption for No.2 kiln line	2013
Japan	Reduce of heat consumption for No.1 kiln line	2013
Japan	Reduce of heat consumption for No.1 kiln line	2013
Thailand	Plant diagnosis & report submission for optimization of pyro-section	2013
Thailand	Plant diagnosis & report submission for optimization of pyro-section	2013
China	Plant diagnosis & report submission for No.1 kiln line	2013
Singapore	Additional In-House engineering services support for cement silo expansion project	2013
Kenya	Technical support for improvement on the quality of cement and manufacturing process for the plant	2013

Country	Service	Year
Angola	Preliminary geological investigation on limestone and additive deposits & basic design of limestone quarry, Angola	2013
Malaysia	Optimization of cement finish grinding system (Two Lines)	2013
Mongolia	Joint Crediting Mechanism feasibility study	2013
Indonesia	Investigation of Indonesian cement market	2013
Thailand	Plant diagnosis & report submission for optimization of pyro-section	2013
Angola	Basic design of 5,000t/d cement plant in Angola	2012
Myanmar	Pre feasibility study for 3,000t/d cement plant project, Myanmar	2012
Singapore	In-House engineering services on the cement silo expansion project at the proposed plant site	2012
South Africa	Feasibility study of energy conservation to cement plants in South Africa supported by METI	2012
UAE	Raw material samples testing in Japan for white cement process	2012
Kenya	Technical support for improvement on the quality of cement and manufacturing process for the plant	2012
Ghana	Testing pozzolana (processed & unprocessed) samples in Japan	2012
Malaysia	Services on second clinker production line & cement mills upgrade	2012
Singapore	Consultancy services for cement silo expansion project	2012
Japan	Increase in production for No.3 kiln line	2011
Japan	Increase in using incombustibility fuel	2011
Japan	Reduce of heat consumption for No.1 kiln line	2011
Japan	Reduce of heat consumption for No.2 kiln line	2011
Korea	Plant diagnosis for optimization of Kiln No.3 manufacturing pyro-section	2011
Vietnam	Introduction of energy concerning technologies to cement plants in Vietnam for Global warming preventing Technology promotion supported by METI	2011
Kenya	Technical support for improvement on the quality of cement and manufacturing process for the plant	2011
Angola	Supervisory services for limestone quarry development	2011

Country	Service	Year
Angola	Raw material sourcing and limestone quarry development	2011
Korea	Plant diagnosis for optimization of kiln No.4 manufacturing pyro-section	2011
Vietnam	Plant diagnosis for fuel conversion for No.1 & No.2 kiln	2010
India	Preliminary site study on existing 900t/d grey process pyrosection at grey cement plant	2010
Philippines	Plant diagnosis & operation investigation for optimization of pyro-section	2010
China	2nd consultancy services for upgrading the existing plant and optimizing plant operation, and for the expansion project	2010
Bangladesh	Technical support for improvement on the quality of cement and manufacturing process for the plant	2010
Myanmar Laos	Introduction of energy concerning technologies to cement plants in Myanmar and Laos for Global warming preventing Technology promotion supported by METI	2010
Kenya	Technical support for improvement on the quality of cement and manufacturing process for the plant	2010
Cote Divoire	Plant diagnosis for optimization of clinker grinding plant	2010
Philippines	Environmental improvement in finish mill section in cement plant	2010
Korea	Plant diagnosis for upgrading No.5 kiln line	2010
Japan	Upgradation, decreasing the heat consumption for No.4 kiln line	2009
Japan	Reduce of heat consumption for No.1 kiln line	2009
Japan	Reduce of heat consumption for No.1 kiln line	2009
Japan	Reduce of heat consumption for No.2 kiln line	2009
Japan	Reduce of heat consumption for No.1 kiln line	2009
Japan	Reduce of heat consumption for No.2 kiln line	2009
Japan	Reduce of heat consumption for No.3 kiln line	2009
Malaysia	Assistance for environmental impact assessment for clinker grinding plant project	2009
Kenya	Technical support for improvement on the quality of cement and manufacturing process for the plant	2009
Nepal	Operating efficiency improvement diagnosis	2009

Country	Service	Year
China	Basic analysis of energy conservation and environmental measures in cement industries supported by NEDO	2009
Taiwan	Advisory service for setting out the project concept	2009
China	Consultancy services for upgrading the existing plant and optimizing plant operation, and for the expansion project	2009
Korea	Plant diagnosis for upgrading SP kiln line	2009
India	Basic analysis of energy conservation and environmental measures in cement industries supported by NEDO	2009
China	Plant diagnosis for optimization for dry process line	2009
Korea	Plant diagnosis for upgrading No.1 kiln line	2009
Indonesia	Feasibility study on alternative fuel combustion in a cement plant supported by NEDO	2009
Malaysia	Feasibility study for setting up clinker grinding plant	2009
China	Plant diagnosis for optimization of the existing plant operation	2009
Japan	Technical support for using waste fuels and materials for No.2 kiln line	2008
Japan	Decreasing the heat consumption, stabilizing the kiln operation for No.4 kiln line	2008
Vietnam	Technical advisory services for basis design for unloading and loading facilities	2008
India	Basic analysis of energy conservation and environmental measures in cement industries supported by NEDO	2008
Korea	Plant diagnosis for upgrading No.6 kiln line	2008
China	Technical advisory services for CDM with waste heat recovery systems	2008
China	Basic analysis of energy conservation and environmental measures in cement industries supported by NEDO	2008
Iran	White cement expansion-site investigation	2008
Turkey	Geological investigation on Cengeller Limestone Deposit	2008
Benin	Plant diagnosis for optimization of the existing facilities and setting up the high efficiency separator	2008
India	Engienering study on setting up waste heat recovery syetem	2008
Japan	Technical support for using waste fuels and materials for No.6 kiln line	2007

Country	Service	Year
Romania	Feasibility study on setting up waste heat recovery system	2007
Vietnam	Feasibility study on setting up waste heat recovery system for No.1 and 2 production line	2007
India	Basic analysis of energy conservation and environmental measures in cement industries supported by NEDO	2007
Korea	Plant diagnosis for upgrading No.5 and No.7 kiln	2007
India	Optimization of Kiln Unit I & II	2007
Uzbekistan	Preliminary investigation on energy saving technology in Uzbekistan cement industries supported by NEDO	2007
Korea	Plant diagnosis for upgrading	2007
Korea	Plant diagnosis for upgrading	2007
Yemen	Feasibility study on setting up of an additional cement production line supported by JBIC	2007
Japan	Technical support for using high-sulfur and high-chlorine materials for No.3 kiln line	2006
Japan	Technical support for using high-sulfur and high-chlorine materials for No.4 kiln line	2006
China	Feasibility study on biomass fuel combustion in cement industry	2006
India	Feasibility study on utilization of municipal solid waste through AK System	2006
China	Feasibility study on energy conservation of a cement plant	2006
China	Feasibility study on energy conservation of a cement plant	2006
China	Feasibility study on energy saving in a cement plant	2006
Indonesia	Cement plant investigation in Indonesia for energy saving, supported by NEDO	2006
Malaysia	Feasibility study on alternative fuel combustion in a cement plant supported by NEDO	2005
India	Feasibility study on energy saving by installing waste heat recovery system in cement plant	2005
Malaysia	Preparation of updated feasibility study consulting services for cement company	2005
Japan	Technical support for using high-sulfur materials for No.3 kiln line	2004
Japan	Technical support for using high-chlorine fuels and materials for No.6 kiln line	2004

Country	Service	Year
Nepal	Operation and maintenance guidance for a cement plant funded by JICA	2004
Vietnam	Preparation of tender document and tender evaluation for the construction of a cement plant (No.2 kiln)	2004
Japan	Optimization of kiln operation for No.6 kiln line	2003
Japan	Optimization of kiln operation for No.7 kiln line	2003
India	Feasibility study on energy saving by installing waste heat recovery system in cement plant	2003
Vietnam	Feasibility study on energy saving by setting up of a vertical mill supported by NEDO	2003
USA	Consulting services for setting up of an additional cement production line	2002
India	Feasibility study on energy conservation and modernization of a cement plant supported by NEDO	2002
Vietnam	Feasibility study on modernization of cement sector supported by NEDO	2002
China	Feasibility study on energy saving in steel and cement industries supported by NEDO	2001
Thailand	Feasibility study on utilizing waste derived fuel at cement company supported by NEDO	2001
Malaysia	Consulting services for setting up of a new cement distribution terminal	2001
Oman	Consulting services for cement plant operation	2001
Saudi Arabia	Feasibility study for modernization of a cement plant supported by NEDO	2001
Indonesia	Feasibility study for modernization of a cement plant supported by NEDO	2001
Romania	Feasibility study on energy conservation and environmental improvement of a cement plant supported by NEDO	2001
Thailand	Study on improving efficiency of energy consumption supported by NEDO	2000
Vietnam	Diagnosis and study on plant operation and environmental protection of a cement plant funded by APO	2000
Philippines	Consulting services for diagnosis of cement plants in the Philippines supported by Japan External Trade Organization (JETRO)	2000
Yemen	Special assistance for project sustainability (SAPS) for a cement plant supported by JBIC	2000
Honduras	Consulting services for setting up of a clinker grinding plant	2000
Malaysia	Feasibility study for setting up of clinker plant in Sabah State funded by Japan Bank for International Cooperation (JBIC)	2000

Country	Service	Year
China	Feasibility study for modernization of a cement plant supported by NEDO	2000
Mongolia	Feasibility study for modernization of a cement plant supported by NEDO	2000
Myanmar	Training in Japan for cement company	2000
Myanmar	Feasibility study for setting up of a new cement plant	1999
Myanmar	Operation and maintenance guidance for a cement plant	1999
China	Feasibility study for setting up of a cement terminal	1999
Myanmar	Feasibility study for expansion of a cement plant	1999
Nepal	Operation and maintenance guidance for cement plant funded by JICA	1999
Indonesia	Comprehensive feasibility study on energy conservation and CO2 emissions reduction supported by NEDO	1999
India	Operation guidance for RSP kiln pre-calciner	1998
India	Feasibility study for installing white cement production equipment	1998
Malaysia	Supervision of construction works of a new cement plant	1998
Indonesia	Study for modification of clinker cooler supported by NEDO.	1998
Malaysia	Study for promotion of efficiency in Malaysia funded by JICA	1998
Philippines	Training services for RSP technology for engineers of a cement company	1998
Malaysia	Study for energy saving in cement industries, Engineering Advancement Association of Japan (ENAA)	1998
China	Feasibility study for modernization of a cement sector in China, funded by Japan International Cooperation Agency (JICA)	1998
Indonesia	Technical assistance for cement quality	1998
Egypt	Consulting services for plant diagnosis funded by Overseas Economic Cooperation Fund (OECF)	1998
Nepal	Feasibility study for setting up of an additional cement production line of funded by JCI	1997
Nepal	Consulting services for reviewing the result of a cement plant construction funded by The Overseas Economic Cooperation Fund (OECF)	1997
Malaysia	Study on promotion of energy efficiency funded by JICA	1997

Country	Service	Year
Pakistan	Pre-feasibility study for the construction of a new cement plant	1997
Colombia	Consultancy services for diagnosis and suggestion for improvement for white cement plant	1997
Philippines	Consulting services for the construction for a new cement plant	1997
Indonesia	Technical assistance for improvement of cement quality and production capacity	1996
Vietnam	Feasibility study for the construction of a cement plant	1996
Romania	Training for O-SEPA technology	1996
Indonesia	Consulting services for civil and erection work for the construction of a cement plant	1996
Indonesia	Technical assistance for improvement of cement quality and production capacity	1996
Vietnam	Training services for RSP technology	1996
Indonesia	Consulting services for the construction of a cement plant	1996
India	Technical Collaboration Agreement for RSP technology	1995
Malaysia	Consulting services for reclamation work, contractor selection and project management for the construction of new cement clinker plant	1995
China	Training services for O-SEPA technology	1995
Korea	Technical Assistance Agreement for RSP technology	1995
Indonesia	Training services for operation of cement plant	1995
Indonesia	Consulting services for civil and erection works	1995
Indonesia	Feasibility study for the construction of a new cement plant	1995
Malaysia	Feasibility study for the construction of a new cement plant	1995
Malaysia	Consulting services for the production increase of an existing clinker grinding plant	1995
Colombia	Consulting services for the improvement of cement quality	1995
Philippines	Consulting services for technical and financial review for establishment of a new cement plant	1995
Indonesia	Technical guidance to increase the output of existing No.1 and No.2 Kiln	1995

Country	Service	Year
Indonesia	Consulting service for construction of a cement plant	1994
Indonesia	Consulting service for quarry development	1994
Malaysia	Consulting service for feasibility study for production increase,	1994
Indonesia	Consulting service for construction of a cement plant	1994
UAE	Diagnosis of plant operation of a cement plant	1993
Australia	Diagnosis of plant operation of a cement plant	1993
Indonesia	Feasibility study for setting up of a cement plant	1993
Indonesia	Technical guidance to increase the output of existing No.1 and No.2 kiln	1993
Vietnam	Consulting service for civil and erection work of a new cement plant	1993
Indonesia	Consulting service for modernization of cement plant	1993
Malaysia	Feasibility study for establishment of a new clinker plant	1993
Taiwan	Consulting service for modernization for a cement plant	1993
China	Consulting services for construction of a new cement plant	1993
Nepal	Technical assistance services for operation of a new cement plant	1992
Saudi Arabia	Consulting service for establishment of a cement plant (Phase II)	1992
China	Pre-feasibility study for setting up of a white cement plant	1991
Saudi Arabia	Consulting service for establishment of a cement plant	1991
Yemen	Consulting service for expansion of cement plant funded by JICA	1991
India	Consulting service for setting up of a new cement plant	1991
Malaysia	Pre-feasibility study for establishment of a new clinker plant	1991
Vietnam	Consulting service for modernization of cement plant	1991
Indonesia	Training services for microscopic analysis of clinker	1990

Country	Service	Year
Philippines	Consulting service for plant diagnosis of a cement plant	1990
India	Training for microscope observation of a cement plant	1990
Poland	Pre-feasibility study for setting up of a new cement plant	1990
Indonesia	Pre-feasibility study for setting up of a new cement plant	1990
Turkey	Pre-feasibility study for expansion of cement plant	1990
Korea	Consulting services for modernization of existing transportation system for cement distribution system	1990
China	Consulting services for construction of a new cement plant	1989
Saudi Arabia	Consulting services for burning process of a cement plant	1989
Pakistan	Consulting services for plant diagnosis	1989
Philippines	Consulting services for Philippine cement sub-sector study	1989
China	Comprehensive research for development of new vertical cement kiln technology, funded by Japan Cement Association	1988
IRAQ	Technical assistance for commissioning of cement plants	1988
Indonesia	Technical guidance for maintenance of X-ray analyzer	1988
France	Technical guidance for operation of cement plant	1988
Japan	Training of key personnel of cement plants (UNIDO) from various countries for UNIDO	1988
India	Technical guidance for setting up of a white cement plant	1988
Singapore	Consulting services for modification of cement services station	1988
Saudi Arabia	Investigation on operation troubles of raw mill and cement mill	1988
Jamaica	Feasibility study for a white cement plant project (JCI)	1988
China	Feasibility study for expansion project of a cement plant	1988
India	Technical assistance for operation of RSP kiln plant	1987
India	Technical assistance for operation of RSP kiln plant	1987

Country	Service	Year
India	Technical guidance for operation of cement plant	1987
Myanmar	Feasibility study for mini-cement plant project (UNIDO)	1987
Nepal	Consulting services including technical assistance service and training for a new cement plant project	1987
Taiwan	Consulting services for a new cement plant project	1987
Yemen	Feasibility study for expansion of a cement plant	1987
U.A.E.	Supervision services in testing and guarantee operation of a cement grinding plant	1986
India	Technical assistance services for RSP kiln plant maintenance and operation	1986
India	Technical assistance services for RSP kiln plant maintenance and operation	1986
China	Technical assistance services for plant erection, guarantee operation of a cement plant	1986
Indonesia	Technical assistance services for plant maintenance and operation of a cement plant	1986
Philippines	Feasibility study for renovation of Antipolo plant of a cement plant funded by JICA	1986
Niger	Feasibility study for rehabilitation of a cement Plant funded by Japan Consulting Institute (JCI)	1986
Philippines	Technical assistance services for plant maintenance and operation of a cement plant	1985
India	Training services in Japan, extended to Indian engineers, for RSP technology	1985
Egypt	Feasibility study for conversion of gray cement plant to white cement plant funded by JICA	1985
Philippines	Feasibility study for rehabilitation of a cement plant funded by JICA	1985
Malaysia	Consulting services for setting up of a new clinker plant	1984
Rusian Feder	Burning test of Nepheline of Rusia by test RSP kiln at Tahara	1983
Saudi Arabia	Consulting services for establishment of a cement plant	1983
Jamaica	Consulting services for expansion of a new cement production line and a firing process conversion from oil to coal, under the loan of IDB (Inter-American Development Bank)	1983
Thailand	Feasibility study for setting up of a new cement plant using oil shale funded by JICA	1982
Malaysia	Consulting services for construction of a new clinker grinding plant	1982

Country	Service	Year
U.A.E.	Pre-feasibility study for construction of a cement plant	1982
Guyana	Feasibility study on improvement of cement supply funded by IDB (Inter-American Development Bank)	1981
Iraq	Consulting service for output increase of quicklime and for clinker storage yard	1981
Tunisia	Study on investment for cement industries funded by OECF	1979
Sudan	Pre-feasibility study for setting up of a new cement plant, funded by JICA	1979
Kenya	Pre-feasibility study for setting up of a new cement plant in Western Kenya (ECFA)	1979
Malaysia	Pre-feasibility study for setting up of a new cement plant	1978
Myanmar	Feasibility study for setting up of a new cement plant, funded by JICA	1978
Niger	Feasibility study for expansion of an existing cement plant funded by JICA	1978
Indonesia	Feasibility study for construction of a new white cement plant	1977
Nepal	Feasibility study for setting up of a new cement plant funded by JICA	1977
Nepal	Consulting services for setting up of a new cement plant funded by ADB	1977
Iran	Pre-feasibility study for construction of a new cement plant	1977
Algeria	Feasibility study for construction of a cement plant	1976
Saudi Arabia	Consulting services from supplemental feasibility study up to supervision of construction of a new cement plant	1976
Saudi Arabia	Consulting services from feasibility study up to supervision of construction of a new cement plant	1975
Indonesia	2nd feasibility study , basic design, supervision for construction of a new cement plant	1974
Brazil	Feasibility study for construction of a new cement plant, preparation of specification for international bid as well as evaluation of reconstruction	1974
Philippines	Feasibility study for construction of a new white cement plant	1973
Mexico	Feasibility study for production increase	1970
Indonesia	Feasibility study for construction of a new cement plant	1970
Vietnam	Feasibility study for construction of a new cement plant	1970

Country	Service	Year
Spain	Feasibility study for construction of a new white cement plant	1970
U.A.E.	Feasibility study for construction of a cement plant	1970
Korea	Feasibility study for construction of a new white cement plant	1969
Bolivia	Feasibility study for construction of a new cement plant	1969
Lebanon	Preliminary survey for construction of a white cement plant	1965
